FOR IMMEDIATE RELEASE

# Rooftop CEO Selected for Community Initiative

November 14, 2025 – Rooftop of Virginia CAP's Chief Executive Officer, Terri Gillespie, has been selected to participate in the 2026 Community Investment Training through the Rural Investment Collaborative.

The Rural Investment Collaborative convenes rural leaders and local community champions from South Carolina, North Carolina, Virginia, Maryland, West Virginia and Washington DC. to participate in shared learning and programming that facilitates improvements.

A signature focus of the Collaborative is to routinely provide Community Investment Training that can help more communities develop viable funding proposals for projects that will make an impact in rural areas. During the training, Gillespie will be working on a proposal focused on housing and early childhood education for the Twin Counties. This training will give her the tools the agency needs to plan, fund and implement this important work.
