

VIRGINIA COMMUNITY ACTION AGENCIES STATEWIDE REPORT

Virginia CSBG | Data Dashboard 2024-25

Virginia Office of
Economic Opportunity

Virginia's community action agencies are local organizations that bring people together to build stronger communities. Their mission is to help individuals and families move out of poverty and create lasting stability. Funded mainly through the federal Community Services Block Grant, these agencies are guided by tripartite boards that include voices from low-income communities, local government, and the private sector. Each agency designs its programs to meet the unique needs of its community - offering support such as job training, early childhood education, housing and energy assistance.
